AVVERTENZE

Questo prodotto deve essere usato come **box doccia**. Operazioni per le quali lo strumento non è stato progettato possono creare un pericolo e/o causare danni al prodotto.

- Non appendere oggetti o complementi pesanti sulla struttura del box doccia.
- Non arrampicarsi sul box doccia.
- Maneggiare il vetro con estrema cautela e fare attenzione a non fargli prendere colpi / urti.

PULIZIA E MANUTENZIONE

Utilizzare acqua saponata calda e un panno soffice leggermente inumidito per pulire il vetro. Asciugare accuratamente con un panno morbido e asciutto. Non usare alcun detergente chimico aggressivo o abrasivo né spugnette abrasive per la pulizia dei vetri e dei profili al fine di non rovinare la superficie del prodotto. E' possibile utilizzare un detergente apposito per i vetri, se necessario.

Pulire il profilo di scorrimento regolarmente.

Se l'acqua è molto calcarea e si lascia che i residui si depositino sui vetri, sarà molto difficile rimuoverli. Si consiglia quindi di pulire regolarmente i pannelli di vetro e i profili per minimizzare questo effetto.
